All classes of hay remain firm. Very good demand for all types of hay currently. Cattle producers are shipping and weaning calves, which is keeping demand for high quality calf starting hay in high demand. All supplies of hay are much tighter this year due to the devastating drought. Corn harvest finishing up across the state as ground conditions firmed up enough to get equipment into fields. Warmer than average weather late week and over the weekend have helped to stretch feed supplies. This week much colder weather returned with snow chance East River.
